H7/IV3IYH confirms the following QSO (s) :

Date	UTC	Band	2way	RST
2008-03-09	16:51	15m	SSB	59

QSL via: Maurizio Galliani, **IK2ILH**

E-mail: ik2ilh@libero.it

I operated ARRL SSB 2008 single band 20 meters as HT2N, ending up with 3,730 QSOs and 660,000 points. Before and after the contest, I enjoyed running pileups on all bands, mostly CW with some SSB and RTTY, ending up with a grand total of over 14,000 QSOs.

Special thanks to Octavio, YN2N and Martha for being such perfect hosts, and to Ben DL6RAI, Maurizio IK2ILH, and Eric K9GY for their help.

The picture on the front of this card shows a typical old building in the Spanish colonial city of Granada, Nicaragua.
